

**Windows 10, 20H2**  
**Lenovo IdeaPads145**

<b>ID</b>	1
<b>Summary</b>	Provided there are several icons on the product (in the upper right corner), the icons are superimposed on each other. <b>Repeated in all headings</b>
<b>Pre-conditions</b>	Go to the site
<b>Steps</b>	1. Open the section "Non-Fiction" in the catalog 2. Scroll down the page
<b>Post-conditions</b>	Return to the main page
<b>Severity</b>	Minor
<b>Priority</b>	Low
<b>Screenshot</b>	
<b>Actual result</b>	Icons denoting "new", "top" and% reduction are placed on top of each other, overlapping the inscription
<b>Expected result</b>	Icons indicating "new", "top" and% discount do not overlap
<b>Type</b>	UI

<b>ID</b>	2
<b>Summary</b>	The title of the books in the section "Children's Literature" is cut off and shown in part. <b>Repeated in all headings</b>

<b>Pre-conditions</b>	Go to the site
<b>Steps</b>	1. Find in the product catalog heading "Children's Literature" 2. Scroll down the page
<b>Post-conditions</b>	Return to the main page
<b>Severity</b>	Minor
<b>Priority</b>	Low
<b>Screenshot</b>	
<b>Actual result</b>	The text with the title and description is not fully visible - the user sees the cropped text
<b>Expected result</b>	The text with the title of the book and its description is logically "hidden" - the user sees either a clear title or the word "more..." (and the whole text is revealed to him)
<b>Type</b>	UI

<b>ID</b>	3
-----------	---

<b>Summary</b>	In the "Children's Literature" section, when sorting "New Arrivals", not all books in the list have the "new" icon. <b>Occurs in all headings</b>
<b>Pre-conditions</b>	Open site
<b>Steps</b>	1. Find in the product catalog heading "Children's Literature" 2. Scroll down the page
<b>Post-conditions</b>	Return to the main page
<b>Severity</b>	Minor
<b>Priority</b>	Low
<b>Screenshot</b>	
<b>Actual result</b>	On the site in all sections when applying the filter "New arrivals" the user does not see the mark "new" everywhere. Because of this, the user cannot be sure that the sorting is working properly
<b>Expected result</b>	When filtering by novelty, the user sees the label "new" on each new product
<b>Type</b>	UI

<b>ID</b>	4
<b>Summary</b>	In the window to specify the number of products, you can enter any number greater than 1000. The cost is not calculated and there is no message about how many products are available
<b>Pre-conditions</b>	1. Log in 2. Select the product and add to cart

Steps	1. Add 1000 items using “+” 2. Enter 0 3. Enter in the column the number of goods "1000"									
Post-conditions	Return to the main page

Зробіть замовлення та отримайте кешбек-промокод!</p><ul style="list-style-type: none"><li>На 50 грн за замовлення понад 200 грн.</li></ul><p>Промокод надійде на Ваш email 14.06.21 та діятиме в інтернет-магазині “Книгарня Є” з 5 по 11 липня.</p><table><thead><tr><th>Найменування</th><th>Кількість</th><th>Ціна</th></tr></thead><tbody><tr><td> Пристрасть</td><td><div>- 1001 +</div></td><td><div><del>2 970 грн</del> 2 140 грн</div></td></tr><tr><td> Аннапурна. Легендарна історія про перше підкорення восьмитисячника</td><td><div>- 1 +</div></td><td><div><del>243 грн</del> 230 грн</div></td></tr></tbody></table></div></div>	Найменування	Кількість	Ціна	 Пристрасть	<div>- 1001 +</div>	<div><del>2 970 грн</del> 2 140 грн</div>	 Аннапурна. Легендарна історія про перше підкорення восьмитисячника	<div>- 1 +</div>	<div><del>243 грн</del> 230 грн</div>
Найменування	Кількість	Ціна								
 Пристрасть	<div>- 1001 +</div>	<div><del>2 970 грн</del> 2 140 грн</div>								
 Аннапурна. Легендарна історія про перше підкорення восьмитисячника	<div>- 1 +</div>	<div><del>243 грн</del> 230 грн</div>								
Actual result	1. The user can deliver any number of goods (even 1,000,000) 2. The price of the number of goods in the range of 100-1000 is not calculated 3. The user does not receive a notification about the maximum quantity of available goods									
Expected result	The user can choose the number of units of goods over 100 and the price is successfully calculated. If the user puts such quantity of goods which is not available, the message on quantity of available units or contacts of the manager for the order / pre-order of necessary quantity of goods for the user is displayed									
Type	Logic, Functional									

<b>ID</b>	5
<b>Summary</b>	The cost of goods differs from the methods of introduction

<b>Pre-conditions</b>	1. Log in 2. Add the product to the cart
<b>Steps</b>	1. Add the 28 number of items in the cart using "+" 2. Enter 0 2. Add the 28 number of items in the cart, using self-input in the column for the number of items
<b>Post-conditions</b>	Return to the main page
<b>Severity</b>	Major
<b>Priority</b>	Medium
<b>Screenshot</b>	<p>The screenshot displays two versions of a shopping cart. The left version shows a total of 7 074 грн, while the right version shows a total of 5 292 грн. Both versions list two items: 'Пристрасть' (28 items, 6 031 грн) and 'Аннапурна. Легендарна історія про перше підкорення восьмитисячника' (1 item, 243 грн). The difference in totals suggests a change in the price of the 'Пристрасть' item or a discount applied in the right version.</p>
<b>Actual result</b>	If you use the buttons to reduce / increase the goods, the price for 28 goods is the same. If you enter the number "28" in the column of the number of goods, the price will be different.
<b>Expected result</b>	The price is calculated in the same way, regardless of the methods of entering the number of goods
<b>Type</b>	Functional
